

Testimonials

"I am really admiring the Earth Action Mentor concept. It is a marvelous thing. It just took my breath away when I first learned about it. Here is another innovation that somebody may have anticipated somewhere, but I sure didn't. This is going to be so useful and so profound for so many people. I want to applaud you for having put together Earth Action Mentor."

Mark Lakeman co-founder City Repair Project and Village Building Convergence

"Earth Action Mentor is an invaluable tool. The format is easy to navigate and provides a wealth of information, which could easily be overwhelming, in a well thought out and organized manner. I love the Community Forum! Thank you!!!"
